Medical-Legal Consulting Services & Fee Schedule

Scope of Services

Dr. Gupta provides independent medical-legal consultation based on active clinical practice in urgent care and primary care, as well as experience in clinical leadership and medical oversight. Services are focused on outpatient care with objective evaluation of clinical decision-making, documentation, and adherence to accepted standards of practice. Opinions are rendered based on contemporaneous medical records, applicable clinical guidelines, and information available at the time of care, including assessment of how clinical decisions, timing, and follow-up may have influenced patient outcomes.

Services Offered

Standard of Care Reviews
Comprehensive medical record review addressing adherence to accepted urgent care and primary care standards, including diagnostic reasoning, guideline application, documentation, and communication.

Clinical Oversight & Provider Supervision
Evaluation of Medical Director responsibilities, physician and advanced practice provider oversight, clinical policies, scope-of-practice considerations, quality assurance, and patient safety practices in outpatient healthcare settings.

Diagnostic Decision-Making & Clinical Timeline Analysis
Evaluation of outpatient presentations with focus on assessment, escalation thresholds, follow-up, and continuity of care, and the clinical impact of these factors on patient outcomes.

Medication Management Reviews
Review of prescribing practices, monitoring, safety considerations, drug interactions, and appropriateness of therapy in outpatient settings.

Outpatient Procedures & Procedural Safety
Review of office-based and urgent care procedures for appropriate patient selection, consent, documentation, performance, and complication management.

Affidavit / Certificate of Merit
Record review and opinion as required by jurisdictional filing statutes.

FOR REVIEW ONLY - NOT SIGNED

Rebuttal Reports
Independent analysis of opposing expert opinions, addressing methodology, clinical accuracy, and guideline application.

Deposition and Trial Testimony
Objective medical testimony presented in clear, non-advocacy language.

Excluded Services
Independent medical examinations (IMEs), forensic pathology, autopsy interpretation, and toxicology analysis.
